

# SETTING UP A PHONE TREE

A phone tree is a great way to keep lots of people connected, and can be used for a street, a block of flats, a local group, or even family and friends.

- 1 First you'll need to gather everyone's telephone numbers (and have permission to use or share them).
- 2 Starting with your name, fill in your phone tree so that each person calls two more people, until everyone in your group is included.
- 3 Share the phone tree with the group so everyone knows who to call, and make sure they have the numbers they need.
- 4 You might like to set a day or time of day so people know when to expect a call.
- 5 Enjoy a natter! Soon everyone in the group will have spoken to at least two people.

**'IT'S A LOVELY WAY TO STAY CONNECTED'**

Mix it up: You could swap the names around each week so you all get to chat to someone different!

# OUR PHONE TREE

Here's our phone tree! It's easy to use, simply find the box with your name in it, and you'll see links to two other people. Give them a call and enjoy a natter!
